

Easygoing enjoyment.

With insect screens and pollen protection  
from WAREMA

*Der SonnenLichtManager*

A close-up photograph of a baby sleeping peacefully on a white, wrinkled surface. The baby's head is resting on a large, light-colored, textured teddy bear. The baby's eyes are closed, and its mouth is slightly open. The teddy bear has a simple, friendly face with dark eyes and a small nose. The overall scene is soft and comforting.

Always stay  
comfortable.

Do you want to enjoy the balmy summer air while relaxing in your home?

Then just remember to keep annoying pests like flies, wasps or even pollen outside. With our innovative insect screen and pollen protection solutions you can relax and breathe easy all the time. Whether for windows, patio doors or integrated into sun shading systems: the elegant and extremely stable systems are suitable for any application and are also available in special shapes. Special fabric models will meet the owner's wishes for a perfect view out or even reliable protection against pollen.

Have more fun in the summer and a boost to your quality of life – with WAREMA insect screens and pollen protection.

## Easy airing: Insect screens for windows

Air your rooms thoroughly even on warm summer evenings and look forward to a restful sleep without pesky flies and moths. The stable and easy to assemble insect screen fixed frame adapts to any window with its discreet appearance. For your skylights, we can offer you the perfect solution with our specialised insect screen roller blinds.

We wish you a pleasant night's sleep!

### ► Roller shutters and external venetian blinds

Our roller shutters and external venetian blinds are optionally available with integrated insect screen roller blinds. That's how you can get the perfect sun shading and insect screen system in one. Also ideal for retrofitting.

## Completely secure: Insect screens for doors

Whether inside or outside: look forward to a relaxed summer time – completely secure against unbidden “troublemakers”. Our insect screens and pollen protection for patio and balcony doors guarantee enjoyment without restriction. Whether sash frames for large glass surfaces, pleated blinds for restricted space or back-swinging doors: at WAREMA you will find the right product for all cases.

### ► Pet door

We have even thought of your pets. The integrable pet door allows dogs or cats complete freedom of movement. The direction of entry can be adjusted as desired.

## All-round protection to help you relax: WAREMA VisionAir pollen screen

Whether spring or summer: the WAREMA VisionAir pollen screen immediately gives you a great deal of joy. The innovative fabric makes possible not just an insect-free living room but also reliably keeps virtually all pollen at bay. It guarantees optimum air circulation and a brilliant view outside at all times. Another plus: the WAREMA VisionAir pollen screen can be combined with different insect screen, external venetian blind and roller shutter solutions from WAREMA.

### ► Light well cover

The fine mesh stainless steel grid keeps out insects, spiders and mice, as well as dead leaves and dirt. It is practically installed directly on the existing grid.
